May 2017

We are so excited and honored to have the opportunity to participate in this Wear Blue: Memorial Day Run To Remember Event." On May 29, 2017, over 20,000 runners and walkers around the world will become a living memorial to America's fallen heroes! The "Wear Blue Memorial Day run" will use the power of community and the accessibility of running and walking for community members to become a living memorial through their steps to honor generations of America's fallen heroes. This years run highlights the 100th anniversary of United States' entrance into World War I. It will do so by reminding people to "Make Memorial Day Your Mission...Unite in Remembrance."

JOIN US MAY 29th , 9AM at PATRIOTS LANDING!

Memorial Day Run!

We will be meeting at the Patriot's Landing Leasing office at 9am the morning of Memorial Day.

Prior to the run, we will celebrate with "The Circle of Remembrance."

All participants are welcome to run or walk in honor of a loved one. We will also have the names of fallen service members, so that everyone can run in remembrance of a Hero!

The run will take place through the Patriot's Landing Community and you are welcome to run or walk the course. While we will welcome walk-ups, we encourage you to RSVP in advance so we can more accurately estimate the number names to have available. We hope to see you there so we can honor those who have given so much for our freedoms... and don't forget to WEAR YOUR BLUE!!

The memorial day run/walk will be approximately 2.2 Miles, see above map

Maintenance Tips

1. Prepare your grill for the outdoor cooking season to begin. You can find several easy methods on the internet, but good old fashion elbow grease and a mild detergent is still the preferred method.
2. Now is a good time to inspect all your screens. To wash your screens, lay them on a picnic table or saw horses and scrub with a soft brush and mild detergent. Make sure they dry completely before replacing.
3. Check caulk and weather stripping around windows and doors for damage and wear.
4. Check all Fire Extinguishers to make sure they are not outdated or damaged.
5. Never clean your windows in direct sunlight, they will dry too quickly and cause streaks. Wait until an overcast day or later in the afternoon to wash the inside and outside of your windows.
6. Clean and inspect your gutters. Use a garden hose to flush your gutter out and make sure that your downspouts are directing water at least three feet away from your foundation.
7. While unpacking your metal patio furniture for the season, coat them in auto polish before setting them out to protect them.
8. As part of your Spring cleaning, make sure to check the contents of your medicine cabinet and remove all outdated prescriptions and over the counter medicines.
9. Clean the refrigerator, inside and out, with mild detergent. Remove all trays and shelves. Make sure to allow everything to dry thoroughly before replacing them.
10. Inspect furniture, cabinets and vanities for loose knobs, pulls and hinges. Lubricate squeaky door hinges with lightweight machine oil.
