

“ONE LESS THING TO WORRY ABOUT”

Spousal Outreach Support

We are honored to assist you while your spouse is away!

In an effort to leave you with "One Less Thing to Worry About", our landscaping company will be available to mow your backyard while your spouse is deployed or TDY for **more than 120 days**. A copy of your orders will be required. It is the resident's responsibility to notify us and provide a copy of extended orders.

- All personal items should be removed or placed on the patio area.
- Pets should not be left unattended in the yard during your scheduled mow.
- All pet waste should be disposed of.

If your lawn is skipped for a reason listed above, it is your responsibility to mow/trim the back yard.

As a reminder, the flower beds and tree rings are the responsibility of the resident.
