February Maintenance Tips:

- Do an extra special deep cleaning for your Valentine! Who doesn't love coming home to a clean house? Grab your cleaning gear and get busy!
- Wash your windows inside your home. It's still a bit too cold to clean the outdoors, but let some extra light in this month by doing a quick wipe down on the inside of your windows. A little Vitamin D goes a long way!
- Oven Hood Exhaust: this preventive maintenance tip is probably the easiest. Just look to see if anything is obstructing the exhaust. Chances are the answer will be no, but you can never say never!

Maintenance Member of the Month!

Dotty is one of our cleaning maintenance techs and we couldn't appreciate her more! She enjoys "working with Hunt employees. It's great teamwork. Working together is great progress." Her favorite food is Chinese, and she likes swimming, boating, and spends some of her free time coin collecting. She's been with our team for 1+ years and lived in Illinois for 25+ years. Thank you Dotty for all that you do!

Meet your SFH Leasing Specialist: Laurie

I have enjoyed being a Leasing Specialist for the past few years. My favorite time has been spent helping military families find their new homes and I look forward to continuing to serve in that role. I have volunteered for the military in different capacities as a military wife, and now as a military mom. I understand first-hand the challenges that PCS moves and deployments present for our military families. I am also a proud mother of 3 precious children, and my hobbies include camping, reading, & spending time with my family.
