March Spring Cleaning Tips:

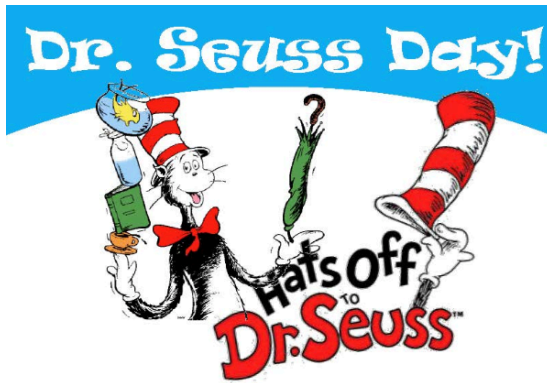

Part 1 of 2! Check in next month for more tips!

- This simple trick starts by cutting a lemon in half and rubbing on the water stains. The citric acid helps remove those hard water marks!
- Use those left over lemon halves to clean the microwave! Squeeze the remaining lemon juice into 1/2 cup of water and microwave for 3 minutes. This will help to loosen the dried on food.
- Losing water pressure in your shower heads? Mineral build up could be the problem. Fill a plastic bag with white vinegar, place over your shower head and secure with a rubber band. Leave overnight.
